

1. Handoff:

It was great speaking with you earlier.

I figured I would add you to this group chat with myself and Blaze ahead of the discovery call.

You should check out his YouTube channel in the meantime: [LINK]

Can you introduce yourself when you get a chance?

2. Client Interview:

You would get quite a lot of value out of this YouTube video based on our conversation.

Here's the link for it: [LINK]

3. Recap:

I don't want you showing up to the discovery clueless or anything like that so let me give you a rundown of everything.

The Kickstarter has one-on-one coaching calls, one-on-one access, group coaching calls, community, and course content.

There are a bunch of other bonuses like the Magnetic Portfolio Template as well.

4. Reminder / Objection Handling & Conviction Building:

I hope you remember that our discovery call is happening later today.

Let me answer some frequently asked questions beforehand.

Is this going to be costly to get started with? The honest truth is that it doesn't require any equipment, subscriptions, or suppliers.

Do I need a following, skill, or product beforehand? The actual reality is that starting with a blank slate actually works in your favour this time.

Is this going to consume my entire life? The thing is that it's all designed to be as accommodating as possible.

Are you sure it's possible to earn from just a phone? The whole point of this is to give you the most output for the least amount of input.

How am I going to manage all of this without any experience? The best part of this is that the effort and sacrifice is nothing in comparison to the returns.

Doesn't the freedom side of things sound too good to be true? The claims that I'm making are all backed by cold hard evidence.

Just remember that brands are allocating serious budget for UGC creators who can generate attention for them on social media.

You get paid a retainer for your work, so that there's always a base, and commissions on sales, so that there's an uncapped ceiling.

Taking this approach alongside somebody who's already had success with it lets you skip past the guesswork.

Feel free to come with as many questions as possible: [\[LINK\]](#)

5. Reminder / Risk Reversal + Urgency & Scarcity:

I wanted to let you know that our discovery call is going down in about an hour.

Let me take a weight off your shoulders first.

I'll keep working with you free of charge if you haven't got it working by the end of our timeframe.

It's also important to mention that I'm just taking on ten people in this cohort and the doors are only staying open for three more days.

You want to make your decision actively instead of passively if you're down.

I would recommend keeping that in mind: [LINK]

6. Reminder:

It's time for our discovery call.

I'm sitting in the waiting room at the moment.

Hop on it: [\[LINK\]](#)
